

# Harmil Goti

Frontend Web Developer (React.js / Next.js)

harmilgoti0@gmail.com | 6353130219

English | Gujarati | Hindi

Frontend Web Developer with 3+ years of professional experience in React.js and Next.js, specializing in building scalable, high-performance, and user-centric web applications. Strong in problem-solving, UI/UX design, and real-time application development. Excellent communication skills with proven experience collaborating in remote and cross-functional teams. Seeking a work-from-home opportunity to contribute to impactful products while continuously enhancing user experience and product quality.

## Key Skills

- Frontend Technologies: React.js, Next.js, JavaScript (ES6+), TypeScript
- UI & Styling: HTML5, CSS3, Ant Design, Tailwind CSS, LESS, material UI, chakra UI
- State Management: Redux Toolkit
- Real-Time Systems: WebSockets, API integration
- Tools & Workflow: Git, GitHub, Agile/Scrum
- Core Strengths: Problem Solving, Responsive Design, Performance Optimization
- Remote Collaboration: Async communication, clean documentation, Git-based workflows

## Professional Experience - Dignizant Technologies LLP

Developed responsive, user-friendly web applications with a strong focus on clean UI and smooth user experience.

Worked extensively with React.js to build reusable, scalable components.

Collaborated with designers and backend teams to translate business requirements into functional interfaces.

Applied best practices in frontend performance optimization and code maintainability.

Demonstrated strong problem-solving skills while debugging and improving existing features.

## Project Experience

### Rukkorverse (Recent Project)

- Collaborative Workspace Platform
- Contributing to the development of a Slack, Infinity, and WhatsApp inspired collaboration platform.
- Space :- Channel-based communication with Flow & Branch modes
- Stash :- File and document management
- Board :- Is inspired by infinity workspace (designed and implement different views like table, board, calendar etc.)
- Contacts & Conversations :- Real-time chat system
- Rukkor AI: AI assistant similar to ChatGPT
- Implemented a hybrid communication model, sending requests via REST APIs and receiving responses through WebSockets for real-time performance.
- Used Redux Toolkit for scalable state management across complex UI workflows.
- Developed high-quality UI components using Ant Design, customized with LESS for consistent branding.
- Focused on UX improvements, navigation clarity, and performance optimization across modules.

### Geometra

- Construction Management Platform
- Key contributor in developing Geometra, a construction management web application using React.js.
- Enhanced UI and functionality for: 2D/PDF & 3D/BIM takeoff measurements
- Cost estimation and project tracking
- Implemented customized datasets to enable accurate pricing and optimization.
- Improved usability and efficiency for construction professionals through intuitive design.

### USPai

- AI Image Generation Platform
- Designed and built the user dashboard for managing AI-generated images.
- Enabled users to view, download, and manage generated content efficiently.
- Worked on overall application structure to ensure smooth navigation and performance across pages.

## Education 2018 – 2021

Bachelor of Commerce (B.Com)

Veer Narmad South Gujarat University

Surat, Gujarat
